

Krishnaraj Singh

Web Developer

singhkrishnaraj027@gmail.com — linkedin.com/in/krishnarajsingh06 — github.com/Krishnaraj-06 — linktr.ee/Krishnaraj_06

PROFESSIONAL SUMMARY

Results-driven technology professional with expertise in software development, Artificial Intelligence, Machine Learning, and Natural Language Processing. Skilled in developing intelligent applications, integrating AI services, and transforming technical concepts into practical solutions. Demonstrates strong analytical and problem-solving abilities with a continuous focus on innovation, efficiency, and real-world impact.

EDUCATION

University of Mumbai

B.E. in Computer Engineering

Mumbai, Maharashtra

Aug 2023 – May 2027

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Computer Security, Artificial Intelligence
- Secured a Top 5 position among 50+ teams in a college-organized hackathon through collaborative problem-solving and innovative solution development

EXPERIENCE

Web Developer Intern

Elevate Labs

Sep 2025 – Oct 2025

Remote

- Implemented interactive frontend features, resolved UI issues, and optimized application responsiveness to enhance user experience
- Built a React-based project while following Git-based version control and modern frontend development practices

Engineering Intern

ICIT

Aug 2024 – Mar 2025

Thane, Mumbai

- Developed responsive web applications using HTML5, CSS3, JavaScript, and Bootstrap, while mentoring 50+ students in frontend development and project implementation
- Designed hands-on coding exercises and guided students in debugging, Git-based workflows, and deployment, improving practical software development skills
- Collaborated in an Agile environment by facilitating project discussions and supporting multiple student web projects through iterative development

PROJECTS

AttendIQ – Smart QR-Based Attendance System

React.js, JavaScript, HTML5, CSS3, Firebase, QR Code, Geolocation API

github.com/Krishnaraj-06/AttendIQ

July 2024 – May 2025

- Developed a QR-based smart attendance system, reducing manual attendance processing time by 80% through automated verification and digital record management
- Implemented geolocation validation and anti-proxy attendance mechanisms to improve attendance authenticity and minimize fraudulent check-ins

KisanCare AI – Farmer Advisory System

Python, React.js, Flask, PyTorch, ConvNeXt, Transformer, XGBoost, FAISS, Open-Meteo

github.com/Krishnaraj-06/KisanCare-AI

Jan 2026 – May 2026

- Developed an AI-powered farmer advisory platform delivering personalized agricultural recommendations through an intuitive digital interface
- Integrated AI-assisted recommendations to improve farmers' access to crop guidance and decision-support resources

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Flask, PyTorch

Tools & Technologies: MySQL, MongoDB, REST APIs, Docker, Git & GitHub, Postman, VS Code

Technical Concepts: DBMS, Data Structures, Algorithms, Operating Systems, Computer Networks

CERTIFICATIONS

AWS Certified Cloud Architecting

2026

AWS Certified Cloud Foundations

2026
